Trivandrum, Kerala, India

PROFESSIONAL SUMMARY

Computer Science graduate (78.4% aggregate) with robust fundamentals in systems architecture and problem-solving. A collaborative player with a service-oriented mindset and proven leadership potential. Recognized for disciplined execution, attention to detail, and a commitment to team success through proactive mentorship and clear communication.

TECHNICAL SKILLS

- Backend Development:** Node.js (Express.js), RESTful APIs, Authentication & Authorization (JWT), Middleware, Asynchronous Programming (Promises, async/await), OOP Principles, Python (Core, Django).
- Frontend Development:** Angular, TypeScript, Event Binding, Property Binding, Two-way Data Binding, Angular Forms, Directives, JavaScript (ES6+), HTML5, CSS3, Bootstrap.
- Databases:** Relational (MySQL, PostgreSQL), NoSQL (MongoDB), Database Design & Optimization.
- Tools & DevOps:** Docker, Docker Compose, Git, GitHub, Postman, Linux.

SOFT SKILLS

- Leadership & Collaboration:** Led a development team during college projects and consistently assisted fellow developers in troubleshooting and building technical solutions.
- Execution & Adaptability:** Strong attention to detail and disciplined execution with a proven ability to quickly learn and adapt to new domains and tools.
- Professional Competencies:** Efficient time management and problem-solving skills focused on delivering high-quality results within project timelines.

EXPERIENCE

Python Trainee

September 2025 – Present

QIS Academy, Trivandrum

- Developed multiple Python-based projects, including GUI applications using Tkinter and Django-based web architectures.
- Implemented REST-style backend logic and integrated APIs with frontend components.
- Built responsive UI components using HTML, CSS, and Angular, focusing on clean structure and usability.
- Applied OOP principles and database integration to deliver scalable, production-ready applications.

PROJECTS

Two-Factor Authentication & Encryption System

January 2025 – February 2025

Major Project – Team Lead

- Led the design and development of a cloud-based security system utilizing a two-factor encryption and split-key approach to reduce unauthorized access.
- Implemented industry-standard cryptographic techniques to ensure data confidentiality and integrity while ensuring smooth team collaboration and on-time delivery.
- Contributed to building a secure, user-friendly interface using ASP.NET, HTML, CSS, and Bootstrap.

Wanderly – Travel & Tour Booking Platform

July 2025 – August 2025

Full-stack MERN Application

- Developed a full-stack MERN application featuring real-time distance calculation between users and destinations.
- Eliminated reliance on third-party services by architecting a custom geolocation and distance computation module.
- Took ownership of core backend logic and overall system integration while contributing to an engaging user interface.

EDUCATION

Bachelor's Degree in Computer Science

August 2022 – April 2025

- University of Kerala
- Percentage: 78.4%

Higher Secondary Education (Class XII) | Computer Science

June 2021 – March 2022

- Govt Model BHSS Thycaud
- Percentage: 86.06%

SSLC (Class X)

June 2019 – March 2020

- Govt Model BHSS Thycaud
- Percentage: 90%

CERTIFICATIONS

- Oracle Cloud Infrastructure 2025 Generative AI Professional:** ([Verify here](#)) Developed expertise in leveraging OCI for building and deploying large-scale Generative AI solutions.
- EY GDS & Edunet Foundation Web Development:** ([Verify here](#)) Completed a 150-hour offline intensive program, collaborating with industry experts to build production-grade web applications.
