

MOHAMMED FARHAN N

Python Developer — Django — REST API — Full-Stack Development

Thiruvananthapuram, Kerala
mohd.farhann7.0.7@gmail.com
+91 8590752235

Professional Summary

Motivated Software Engineer with strong experience in Python development, backend API design, and full-stack web applications. Skilled in building scalable backend systems using Django, REST APIs, and JWT authentication, along with frontend integration using Angular and Bootstrap. Experienced in machine learning model implementation, data processing, and real-time data analysis systems. Passionate about developing efficient software solutions and continuously learning modern technologies.

Technical Skills

Programming Languages

- Python, Java, SQL

Backend Development

- Django
- Django REST Framework
- RESTful API Development
- JWT Authentication
- API Integration
- Microservices Basics

Frontend Technologies

- Angular
- HTML5
- CSS3
- Bootstrap
- JavaScript

Database

- MySQL
- PostgreSQL
- SQLite

Data Science & Machine Learning

- NumPy
- Pandas
- Scikit-learn
- Data Preprocessing
- Feature Engineering
- Model Evaluation

Tools & Technologies

- Git & GitHub
- Postman
- Docker (Basic)
- Linux
- VS Code

Concepts

- Object Oriented Programming (OOP)

- Data Structures
- Software Development Lifecycle
- MVC Architecture
- API Security
- Unit Testing

Projects

Predicting Chronic Obstructive Pulmonary Disease Using Machine Learning (Main Project)

- Developed a machine learning model using real-world patient datasets to classify COPD severity levels.
- Implemented Random Forest Classifier for prediction with optimized accuracy.
- Performed data preprocessing, feature scaling, and data cleaning to improve model performance.
- Designed a reusable prediction pipeline capable of performing inference on new patient data.
- Utilized Python, Pandas, NumPy, and Scikit-learn for model development and evaluation.

Real-Time Match Score Analyzing System

- Developed a Python-based system to analyze real-time match scores and statistics.
- Implemented data collection, score tracking, and real-time performance analysis algorithms.
- Built modules to analyze player performance metrics, scoring trends, and match predictions.
- Designed backend logic to process continuous data streams and generate analytical insights.

Hand Cricket Simulation Game (Mini Project)

- Developed a Python-based digital hand cricket simulation where users can play against AI opponents.
- Implemented machine learning logic to predict player moves, improving AI decision making.
- Created a game engine to simulate innings, scoring logic, and win-loss evaluation.

Work Experience

Quest Innovative Solutions – Thiruvananthapuram Python Full Stack Developer Trainee (Present) Responsibilities

- Developed backend modules using Python and Django for web applications.
- Designed and implemented REST APIs for frontend integration using Django REST Framework.
- Implemented JWT-based authentication systems for secure user login and authorization.
- Built database models and optimized queries using MySQL/PostgreSQL.
- Worked on API testing and debugging using Postman.
- Integrated Angular frontend with Django backend services.
- Assisted in designing scalable backend architecture and modular code structures.
- Collaborated with development teams using Git version control.

Internship

National Institute of Technology (NIT Calicut) Data Processing Intern Kozhikode — Nov 2023

- Collaborated with a team to optimize data processing workflows for improved performance.
- Assisted in storing and managing large datasets efficiently.
- Worked with large datasets for data cleaning, transformation, and analysis using Python tools.
- Helped implement methods to improve data accuracy and processing efficiency.

Education

B.Tech in Computer Science and Engineering
MES Institute of Technology and Management
APJ Abdul Kalam Technological University
2021 – 2025

Senior Secondary (Higher Secondary)
M.R.M.K.M.M.H.S.S Edava

Board of Higher Secondary Examination, Kerala

Percentage: 77%

SSLC

Little Flower English Medium Higher Secondary School, Edava, Varkala

Percentage: 85%

Soft Skills

- Strong Work Ethic
- Attention to Detail
- Adaptability
- Decision Making
- Communication Skills
- Leadership
- Problem Solving

Languages Known

- English
- Malayalam
- Hindi
- Tamil
